## 4. First aid measures

### 4.1. Description of first aid measures

#### General

In all cases of doubt, or when symptoms persist, seek medical attention.

#### Inhalation

#### Eyes

Never give anything by mouth to an unconscious person.

#### Skin

#### Ingestion

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

### 4.2. Most important symptoms and effects, both acute and delayed

#### Overview

Irrigate copiously with clean fresh water for at least 15 minutes, holding the eyelids apart and seek medical attention.

#### Inhalation

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

#### Eyes

#### Skin

If accidentally swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

#### Ingestion

Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-allergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation and soreness with possible reversible damage. See section 2 for further details.

May cause damage to organs.

Causes serious eye irritation.

May be harmful in contact with skin. (Not adopted by US OSHA) Causes skin irritation.

Overalls which cover the body, arms and legs should be worn. Skin should not be exposed. All parts of the body should be washed after contact. Wear PVC or rubber gloves.

**Engineering Controls** Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

**Other Work Practices** Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
